SPEAK OUT!® and The LOUD Crowd® were developed at Parkinson Voice Project, a 501(c)(3) nonprofit organization, located in Richardson, Texas, and dedicated to preserving the voices of persons with Parkinson's and related neurological disorders. SPEAK OUT!® is a therapy program based on the teachings of Dr. Daniel Boone, a speech-language pathologist and author of over 100 publications and fifteen books, including: *The Voice and Voice Therapy*, now in its 9th edition. In his work with patients, Dr. Boone discovered that speech often improved when patients spoke "with intent." Learn more about their program by visiting: www.ParkinsonVoiceProject.org
