

Your Voice is Needed

Join Google and LSVT in Project Euphonia

What:

Google is working to make speech recognition more accessible to people with speech disorders. To do this we need samples of disordered speech to train the system. LSVT Global is recruiting people with speech disorders to help. Upon completion of the project, participants will receive a \$60 gift card from Google.

Who:

People with Parkinson's disease (PD), PSP, MSA, post DBS or Tremor with mild, moderate, or severe speech disorders.

How Can You Help?

You record samples of your speech online in the comfort of your home, with the assistance of an expert speech clinician.
